DETAILED ACTION

1. This action is in response to the appeal brief filed on 01/03/2006.
2. The rejection under 35 U.S.C. 102(e) as being anticipated by Ungar (U.S. 6,085,035) to claims 1-29 is withdrawn in view of applicant's remarks/arguments.
3. Claims 1-29 are pending.
4. Claims 1-29 are allowed.

REASONS FOR ALLOWANCE

5. The following is an examiner's statement of reasons for allowance:

The cited prior art taken alone or in combination fail to teach, in combination with the other claimed limitations, selecting a call linkage between a caller procedure and a callee procedure for each procedure call using the extracted information, where the selected call linkage is optimized to minimize the run time of the object code generated from the source code as substantially recited in independent claims 1, 14, 21 and 29.

The closest cited prior art, Ungar (U.S. 6,085,035) teaches a method for optimizing object code based on variable types, and variable usage patterns. However, Ungar (U.S. 6,085,035) fails to teach selecting a call linkage between a caller procedure and a callee procedure for each procedure call using the extracted information, where the selected call linkage is optimized to minimize the run time of the object code generated from the source code as substantially recited in independent claims 1, 14, 21 and 29; and as pointed out by the applicant's remarks/arguments on pg. 10, par. 2 to pg. 14, par. 1.

Art Unit: 2191

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
